CAREER OBJECTIVE

Motivated and passionate B.Tech fresher in Artificial Intelligence & Data Science seeking a challenging role as a Software Developer or AI/ML Engineer. Possessing strong skills in programming, full-stack web development, Android app development, and machine learning. Eager to apply technical knowledge to real-world problems and grow within a dynamic organization.

EDUCATION

Qualification	Institution / Board	Year	Result
B.Tech – AI & Data Science	Fabtech Technical Campus, Sangola (DBATU)	Pursuing	CGPA: 7.50
Diploma – Engineering	Karmayogi Institute of Technology (MSBTE)	2024	76.40%
12th (HSC)	Kanistha Mahavidyalay, Pehe (Maha. State Board, Pune)	2022	78.50%
10th (SSC)	Pehe Madhyamika Vidyalaya, Pehe (Maha. State Board, Pune)	2020	79.00%

TECHNICAL SKILLS

Languages: C, C++, Java, Python
Web Development: HTML, CSS, JavaScript, Spring Boot
Mobile Development: Android Development (Java, Android Studio)
Databases: MySQL, MongoDB
AI / ML: Machine Learning, NumPy, Pandas, Scikit-learn

PROJECTS

1. Inventory Management System

Developed a comprehensive inventory management system using Python for a fertilizer shop. Features include product record management, real-time stock tracking with low-stock alerts, billing generation, and inventory reports. Uses MySQL for persistent storage with a console-based interface, enhancing skills in Python, database connectivity, and business logic.

2. Research & Development Portal

Built a full-stack college R&D portal to digitize research activities. Frontend in HTML, CSS, JavaScript; backend with Spring Boot REST APIs for paper submissions, project registrations, and publication tracking; MySQL database. An Android app enables mobile access for browsing projects and submitting updates, demonstrating full-stack and cross-platform skills.

3. Personal Assistant (AI-Based)

Created a Python-based intelligent assistant responding to voice and text commands for tasks like answering questions, opening apps, setting reminders, fetching weather, and playing music. Uses Speech Recognition, pyttsx3, and Wikipedia APIs, reflecting skills in AI fundamentals, Python scripting, and human-computer interaction.

ACHIEVEMENTS & CERTIFICATIONS

- Certificate of Achievement – KURUKSHETRA 2K26 National Techno-Management Fest | AI & Intelligent Automation – Best Innovator Team, Fabtech Technical Campus
- Winner/Participant – Project Competition at TECHNO-FAB 2K26 (FTC, CoER, Sangola), 25th March 2026, Fabtech Technical Campus
- AI Fundamentals Certification – Codec Technology
